

BLENDING SOARING, SPORT, AND AEROBATIC FLYING

A-EFL32250 / A-EFL32275 Conscendo 2.0m BNF Basic with AS3X+ & SAFE Select / PNP

The E-flite Conscendo Evolution 1.5m quickly became one of the brand's most popular and distinctive models, followed by the ultra micro (UMX) version, which also achieved strong sales. Both are known for combining soaring, sport, high-speed, and aerobatic capabilities, appealing to a wide range of pilots.

The larger Conscendo 2.0m builds on this success with enhanced features, including flaps that support multiple configurations such as flaperons, spoilerons, and crow. Its 4S-6S compatible power system with a 70A telemetry-capable ESC offers flexible performance and extended flight times. An optional, tool-free landing gear system allows easy operation from smooth surfaces.

Both versions can be equipped with optional LED lights for day or night flying. The BNF Basic model includes a factory-installed receiver with real-time telemetry, plus advanced flight technologies that improve stability, control, and ease of use.

FEATURES ☰

- Offers a one-of-a-kind blend of smooth soaring, sport flying, high-speed, and aerobatic flight performance
- Factory-installed brushless outrunner motor with a custom-designed and durable folding propellor
- Optional-use landing gear that quickly snaps into/out of place plus a steerable tailwheel for operation from smooth surfaces
- Functional flaps for shorter takeoffs and landings plus improved slow-flight performance
- Flaps can travel both ways for optional full-span aileron/flaperon/spoileron and crow operation
- Strong and easy to install/remove two-piece composite reinforced wing with hands-free servo connections
- Higher-density EPO results in a stronger and stiffer airframe with a smoother, dent resistant finish
- Large and convenient magnetically secured top hatch for easy battery installation/removal

IN THE BOX ✓

- (1) E-flite Conscendo 2.0m with:
- (6) Spektrum Digital, MG Servos
- (1) Spektrum BL Outrunner Motor
- (1) Telemetry-Capable 70-Amp ESC
- (1) Spektrum AR8360T+ 8-Channel Receiver with AS3X+ and SAFE Select*
- (1) Product Manual

NEEDED TO COMPLETE +

BNF Basic

- (1) Full-range 6-8+ channel Spektrum DSMX compatible transmitter depending on desired functionality

PNP

- (1) Full-range 5-7+ channel transmitter and receiver depending on desired functionality

Both

- (1) 4S to 6S 3200-5000mAh LiPo with EC5/ICS Connector (**NOTE:** Only SPM 6S 5000mAh 30C G1 & G2 batteries will fit - the 50C & 100C are too large to fit)
- (1) Compatible LiPo charger
