

SAME CLASSIC LOOK. NEW SMARTER SIZE.

A-HAN15040 / A-HAN15075 / A-HAN-4013 Valiant 20cc ARF / EP PNP / EP PNP Combo

The original Hangar 9 Valiant 30cc was a beloved and highly reviewed model due to its classic yet modern looks, as well as unexpected aerobatic capability, plus smooth and stable flight performance. However, the 108-inch wingspan made it difficult for many pilots to store and transport. The Valiant 20cc is a scaled-down version with an 86.5 inch (2.2m) wingspan that still offers a giant-scale experience - but in a more practical size for everyday flying. It features the advantages of lightweight, stiff, and strong wood construction that's covered with genuine UltraCote film. Plus, it's available in an ARF version that allows you to install the glow, petrol, or electric power system and electronics you prefer, or in a time and money-saving EP PNP version that's equipped with six factory-installed Spektrum servos, a 4S-6S compatible Avian motor, and a Smart ESC.

FEATURES

- Giant scale 86.5" (2.2m) wingspan with strong and stiff - yet lightweight and long-lasting - built-up wood construction finished with genuine UltraCote film covering
- Power it your way with glow, petrol or electric power system option*
- Factory-installed hinges and bolt on tail surfaces reduce assembly time
- Functional flaps for shorter takeoffs and landings plus improved slow-flight performance
- Flaps can travel both ways for optional full-span aileron/flaperon/spoileron and crow operation
- Large and convenient top-mounted windshield hatch, fiberglass cowl, and LED navigation lights
- Durable aluminium landing gear with optional-use wheel pants
- Two-piece wing with slots in the fuselage to hold the wing tube for more convenient storage and transport

IN THE BOX

ARF/ EP PNP / EP PNP Combo

- (1) Hangar 9 Valiant 20cc PNP with
- (1) Product Manual

EP PNP & EP PNP Combo Only

- (6) Spektrum A6380 Digital HV, Metal-Geared Aircraft Servos (installed)
- (1) Spektrum Avian 5065-450Kv Brushless Outrunner Motor (installed)
- (1) Spektrum Avian 100-Amp Brushless Smart ESC (installed)

EP PNP Combo Only

- (1) Spektrum AR8360T+ Receiver
- (1) 6S 5000mAh 30C LiPo Battery

NEEDED TO COMPLETE

ARF (HAN15040)

- (1) Full-range 5+ channel Tx & Rx
- (6 or 7) Standrad Size Servos
- 20cc Petrol Engine / equivalent 4S to 6S compatible electric power system

EP PNP (HAN15075)

- (1) Full-range 5+ channel Tx & Rx
- (1) 4S to 6S 4000-7000mAh LiPo
- (1) Compatible Charger

EP PNP Combo (HAN-4013)

- (1) 8+ Channel DSMX Transmitter
- (1) Compatible Charger
