

THE KING RETURNS, IN ELECTRIC FORM

C-LOS05022 1/5 5IVE-TE 3.0 Electric 4WD Desert Truck RTR

The Losi 5IVE-TE 3.0 redefines large-scale RC performance with the most powerful factory-installed Spektrum system ever fitted to a surface vehicle. Inspired by the legendary 5IVE-T platform, the new 5IVE-TE 3.0 combines proven engineering with cutting-edge 12S brushless power, delivering blistering 50+ mph speeds through its 560Kv motor and 250A Smart ESC. Drivers can also run 8S batteries for a more manageable 35+ mph experience.

Built for durability and control, it features injection-moulded polypropylene body panels, upgraded drivetrain components, and redesigned suspension with 32mm big-bore shocks for improved handling on rough terrain. Officially licensed KMC wheels and Pro-Line Mirage TT tyres provide aggressive scale styling and exceptional grip, while the Pro-Loc bead lock system simplifies tyre replacement.

Additional highlights include a high-torque Spektrum servo, AVC stability technology, Smart telemetry compatibility, and an easy-access centre differential mount, making the 5IVE-TE 3.0 the biggest, fastest, and most capable 5IVE-T yet.

FEATURES

- Spektrum's 12S power system delivers 50+ mph speeds (35+ mph on 8S)
- Officially licensed KMC KM549 wheels with Pro-Line Pro-Loc bead lock system
- Massive 8.5" Pro-Line Mirage TT tyres with desert truck sidewall ribs
- Injection-moulded polypropylene body panels (6-piece design)
- Longer wheelbase for improved stability and scale proportions
- All-new straightened centre drivetrain for maximum efficiency
- Easy-access centre diff mount design
- Optimized gearing: 43/12 ring and pinion with 67T spur
- New 32mm big-bore shocks with tapered pistons
- Redesigned suspension arms with reinforced shock mounting locations
- Spektrum SR6200A 6-channel DSMR receiver with AVC technology
- Spektrum DX3 Smart DSMR transmitter with throttle limiting
- Smart battery telemetry on transmitter display
- 1/5 scale 4WD drivetrain

IN THE BOX

- (1) Losi 5IVE-TE 3.0 1/5 Scale Electric 4WD Desert Truck RTR
- (1) DX3 Smart DSMR 3-Ch. Transmitter
- (1) Spektrum SR6200A 6-Channel DSMR AVC Surface Receiver
- (1) Spektrum Firma 250A Brushless Smart ESC, 6S-12S: Dual with IC5
- (1) Spektrum Firma 70120 560Kv Brushless Motor, Smooth Can: 8mm
- (1) Spektrum 1/5-Scale Metal Top Hi Torque 15T Servo, 1000 oz-in
- (4) AA Transmitter Batteries
- Wheel Wrench Rod End
- Turnbuckle Tool, Multi-wrench, 2.5mm, 3mm, and 4mm Allen Wrench
- Instruction Manual

NEEDED TO COMPLETE

- For 12S Power: (2) 6S LiPo Batteries with IC5 Plugs
- For 8S Power: (2) 4S LiPo Batteries with IC5 Plugs
- Compatible Charger
