

B-PRB-2171T1/T2 Sonicwake 36" V3 Self-Righting V-Hull Boat RTR, Black / Red

The Pro Boat Sonicwake 36" V3 Self-Righting Deep-V is built for serious speed, control, and durability. Powered by an 8S system with a water-cooled 1350Kv brushless motor and 160A ESC, it delivers blistering 60+ MPH performance across choppy water. Its self-righting hull flips upright in seconds, while dual water cooling, adjustable trim tabs, a longer rudder, and waterproof high-torque steering help provide confident handling. Practical upgrades include the SSL battery tray for fast installation, a replaceable bow section for easier repairs, a re-clampable breakaway rudder, magnetic grease catch, and improved rubber canopy seal to help keep water out.

FEATURES

- Self-righting Deep-V hull design
- 60+ mph speed potential on 8S power
- Durable composite performance hull
- Replaceable bow cone for easier repairs
- Breakaway rudder protection to help reduce impact damage
- Dual water pickup for improved motor and ESC cooling
- SSL battery tray for fast, easy battery installation
- Upgraded hardware with stronger turn fins and adjustable trim tabs
- Larger propeller strut for easier tuning
- Waterproof* electronics for reliable marine performance
- Improved waterproof receiver box
- Sealed canopy with locking thumb screws and improved rubber gasket
- Magnetic stuffing tube grease catch for cleaner maintenance
- Free-floating prop strut bushing with easy grease port

IN THE BOX

- (1) Sonicwake 36" V3 Deep-V
- (1) Spektrum SLT3 3-Channel SLT Transmitter with SR315 Receiver
- (1) Spektrum 160A BL Marine ESC
- (1) Spektrum 4-pole 1350Kv Motor
- (1) SSL Battery Tray System
- (1) Boat Stand
- (1) Manual

NEEDED TO COMPLETE

- (2) 100C 4S LiPo batteries with IC5 or EC5 connector
- (1) Dual LiPo charger
