

50+ MPH OF PURE FREEDOM

C-ARA3530SFF 1/10 FREEDOM FLYER 223S 2WD RTR Brushless Monster Truck

Born from the full-send attitude of Tomfoolery Motorsports and Cleetus McFarland, the ARRMA 1/10 FREEDOM FLYER 223S 2WD RTR Brushless Monster Truck brings star-spangled style and serious brushless performance to every bash session. Built on the proven 223S BLX platform, it delivers 50+ MPH speed and 2S-3S capability straight out of the box, with no upgrades needed. A Spektrum 4000Kv brushless motor and waterproof 45A 2-in-1 ESC/receiver provide the power, while metal gears add strength for harder hits and bigger sends. Dynamic Stability Control helps keep the action smooth and controlled, giving drivers confidence as they push the limits. With on-demand wheelies, a hidden body retention system, waterproof electronics, and a high CG chassis ready for jumps, mud, and rough terrain, the FREEDOM FLYER turns any patch of dirt into a red, white, and blue bash zone.

FEATURES

- RTR - fully assembled and ready to bash out of the box
- 50+ MPH top speeds
- 2S & 3S LiPo compatible
- Spektrum SLT2 2.4GHz 2-Channel Transmitter with DSC
- Dynamic Stability Control automatically applies steering correction for easy, controllable sideways action
- Spektrum S681 Metal-Geared Waterproof Digital Servo
- Built-tough metal gear drivetrain
- dBoots Cut Chevron MT tyres for all-terrain performance
- All-terrain suspension package for star-spangled sends
- High CG chassis design for increased ground clearance
- Integrated wheelie bar for on-demand wheelies
- Hidden body retention system for ultra-fast maintenance access
- Large front bumper for hard hits
- Bottom-loaded battery bay for quick pit stops
- Mesh safe plate
- IC5 connectors (EC5 compatible)
- Waterproof electronics

IN THE BOX

- (1) 1/10 FREEDOM FLYER 223S 2WD RTR Brushless Monster Truck with:
- (1) Spektrum SLT2 2.4GHz 2-Channel Transmitter with DSC
- (1) Spektrum SLT 45A 2-in-1 Waterproof Brushless ESC & Receiver
- (1) Spektrum S681 Metal-Geared Waterproof Digital Servo
- (1) Spektrum 4000Kv Brushless Motor with ARRMA 40MM Cooling Fan
- (1) Spektrum S100 1x100W USB-C Smart Charger
- (1) Spektrum 7.4V 4000mAh 2S 30C Smart G2 Hardcase LiPo, IC5
- (4) AA Batteries

NEEDED TO COMPLETE

- Nothing! Charge the battery and let freedom rip!
