

THE PERFECT TRAINER

A-HBZ380002 / A-HBZ385002 Aeroscout S 2 1.1m with RealFlight / BNF Basic

The HobbyZone AeroScout S 2 1.1m makes learning to fly RC easier, safer and more enjoyable. Its SAFE technology offers Beginner, Intermediate and Experienced flight modes, while Panic Recovery can instantly return the aircraft to stable flight. The protected pusher-style power system, durable EPO construction, oversized tyres and steerable nose wheel make it ideal for flying from grass and other suitable surfaces, with optional floats available for water use. Both versions feature a Spektrum Avian 30A Smart Lite ESC with real-time telemetry and an upgraded AR631+ receiver with Smart Transmitter File support. The RTF Basic version includes a Spektrum DXS transmitter and RealFlight Trainer Edition simulator, requiring only a suitable battery and charger, while the BNF Basic version is designed for pilots using their own compatible Spektrum equipment. Once skills improve, Experienced Mode unlocks aerobatics including loops, rolls and inverted flight, making the AeroScout an excellent long-term trainer.

BASIC

RF TRAINER EDITION

The RTF version includes RealFlight Trainer Edition, featuring popular Horizon Hobby aircraft, guided flight lessons and USB-C connectivity for the included DXS transmitter.

FEATURES

- Beginner, Intermediate and Experienced flight modes you can easily change between at the flip of a switch
- Panic Recovery for quick, stable flight recovery
- Spektrum AR631+ receiver with DSMX and telemetry
- Powerful brushless system with Avian Smart Lite 30A ESC
- Durable EPO airframe with reinforced nose and landing gear mount
- "Pusher" power configuration for improved safety plus better propeller and motor protection
- Oversized tyres and steerable nose wheel for grass operation
- Full 4-channel control with aerobatic capability
- Quick, glue-free assembly
- Compatible with 3S 1300-2200mAh batteries

IN THE BOX

- (1) AeroScout S 2 1.1m with:
- (1) Spektrum Avian 30A Brushless Smart Lite ESC
- (1) Brushless Outrunner Motor
- (4) Sub-Micro Servos (installed)
- (1) Spektrum AR631+ Receiver
- (1) Spektrum DXS 2.4GHz DSMX Transmitter (RTF Basic Only)
- (1) RealFlight Trainer Edition RC Flight Sim Software Only (RTF Basic Only)
- (1) Quick Start Instruction Guide
- (1) Pre-Flight Checklist Card
- (1) Product Manual

NEEDED TO COMPLETE

- (1) Full-range 6+ channel Spektrum DSMX compatible transmitter (BNF Basic Only)
- (1) Compatible computer and operating system to run Simulator Software (RTF Basic Only)
- (1) 3S 11.1V 1300-2200mAh LiPo battery with EC3 or IC3 connector
- (1) Compatible LiPo charger
