C-ARA7604V3T1/T2 1/7 MOJAVE 6S 4X4 RTR Brushless Desert Truck, Blue/ Beige

The refreshed 1/7-scale ARRMA MOJAVE 6S 4X4 RTR returns tougher, faster, and more capable than ever. Designed for high-speed desert-style driving, its long wheelbase and wide stance deliver stable, planted handling across dirt, sand, grass, and asphalt.

Power comes from a Spektrum Firma 150A Smart V2 Waterproof ESC paired with a Firma 4074 2050Kv brushless motor, offering 4S or 6S compatibility and 60+ MPH capability on 6S. Underneath, a rigid 7075 T6 aluminium chassis, all-steel driveshafts, metal drivetrain components, reinforced side guards, bumpers, and skid protection provide the durability needed for hard bashing.

The aggressive new body features a hidden clipless mounting system for quick, clean access, while dBoots Fortress tyres deliver dependable traction across mixed surfaces. Built for speed, stability, and punishment, the MOJAVE 6S is ready to turn every open space into a desert playground.
