

A-EFL14950 / A-EFL14975 Pilatus PC-21 1.3m BNF Basic / PNP

The Pilatus PC-21 is an advanced training platform developed specifically to meet the needs of modern pilots. Designed and built in Switzerland, it features a turboprop engine to deliver jet-like performance and high-G capability, making it the top choice of numerous air forces around the world. The E-flite PC-21 1.3m (1.45m L) is a tribute to the unique design featuring a variety of scale details along with functional retracts and flaps, plus landing and navigation lights. It's equipped with a 5-blade propeller, a specially tuned brushless motor, and a Spektrum Avian 100A Smart ESC compatible with 6S 4000-7000mAh batteries to deliver unlimited vertical performance and level-flight top speeds up to 100+ MPH. The BNF Basic version also includes a telemetry-capable AR637TA+ receiver with enhanced AS3X+, optional-use SAFE Select, and convenient Smart Transmitter File technologies that make it even easier for a wide range of pilots to fly and enjoy!

FEATURES

- Detailed scale features including exhausts, antennas and pilot figures
- Functional flaps, retracts, gear doors and LED lighting
- Wide flight envelope from stable slow flight to precision aerobatics
- Spektrum Avian 100A Smart ESC with real-time telemetry
- Optional motor reversing for shorter landing rollout
- Compatible with 6S 4000-7000mAh batteries
- 100+ MPH top speed and unlimited vertical performance
- Included 2-blade spinner option for speed and efficiency
- Seven factory-installed MG servos
- Shock-absorbing electric retracts for varied surfaces
- Functional flaps improve slow flight, takeoffs and landings
- Reinforced hatch edges for added durability
- Quick, glue-free assembly
- Easy-access top hatch with detailed cockpit and pilots
- Premium painted finish with factory-applied decals
- Two-piece wing with hands-free connections
- Durable high-density EPO airframe

IN THE BOX

- (1) E-flite PC-21 1.3m (1.45m L) with:
- (7) Spektrum Metal-Geared Servos
- (1) Spektrum Brushless Motor
- (1) Avian 100-Amp Smart Brushless ESC
- (1) Spektrum AR637TA+ Receiver*
- (1) Product Manual

NEEDED TO COMPLETE

BNF Basic

- (1) Full-range 6-8+ channel Spektrum DSMX compatible transmitter

PNP

- (1) 6+ channel transmitter and receiver

Both

- (1) 6S 22.2V 4000-7000mAh LiPo with EC5 or IC5 Connector
- (1) Compatible LiPo charger
